Pearl Chalcedony - PC

Throughout my travels and studies, I have observed unique images, amulets, and symbols that have influenced my jewelry designs. One that has been a continual special inspiration to me is the Hamsa, a symbol that provides protection, peace, good health, happiness and fortune to the one who possesses it.

While each of us experience challenges in our life, we seek courage to alter the outcome and realize positive solutions. My Hamsa evokes internal powers to move forward and assume actions that will alter the course while offering protective energy as we embark on an uncharted journey.

The SMS Jewelry Designs Collection links the Hamsa outline abstractly and in petals with the female form, melding this ancient image with her beauty, love and mystical, positive power for well-being.

This Hamsa version is a beautiful, organic image to strengthen special occasions and bring meaning to each day. My hope and blessing is that this remarkable design brings good luck to others as it has for me.

Please share and enjoy this SMS Jewelry version of the ancient Hamsa.  
May it truly uplift, protect, and bring good health, fortune and happiness to you and those you love.

SMS Jewelry Designs is based and handmade in Austin, Texas.  
We specialize in combining contemporary looks, metals,  
and styles to allow each customer to express themselves.
